Adam J Wallen

Affiliate, Facilities Energy Management

Bio

BIO

Adam studied Aeronautical and Mechanical Engineering. As for Electrical, he started with 12 VDC systems in cars and moved up through 240 VAC. Additionally, he teaches computer programming.

Adam's claim to fame is that he was the first W2 employee for SkyFoundry. In his spare time, Adam uses his Divemaster certification to hunt for extinct shark teeth and fly drones. Adam also enjoys working on cars and credits much of his engineering knowledge to tinkering. Additionally, Adam is currently working on his Private Pilot's License.

In 2020, Adam founded Ziva Tech Solutions where he proudly supports Stanford's LBRE team.
