Stanford

Vishnu Ravi

Clinical Assistant Professor, Medicine - Primary Care and Population Health

CLINICAL OFFICE (PRIMARY)

- **Stanford Internal Medicine**

  211 Quarry Rd Rm 302

  3rd Fl

  Palo Alto, CA 94304

  Tel (650) 498-9000 **Fax** (650) 725-7078

Bio

BIO

Dr. Vishnu Ravi combines his expertise as a board-certified, practicing internal medicine physician, senior software engineer, and board-certified clinical informaticist to create transformative solutions for healthcare.

As the Technology Architect for Stanford Medicine Catalyst, the Stanford School of Medicine's flagship innovation program, he designs, develops, and implements innovations including AI-driven platforms for Parkinson's care, chronic cardiovascular disease management, and precision pharmacogenomics that are helping patients receive more personalized and effective care.

At the Stanford Mussallem Center for Biodesign, Vishnu helps lead the center's digital health initiatives spanning education, research, and translation. To support this work, he co-founded Stanford Spezi, an open-source framework and ecosystem for building modular, standards-based digital health solutions that is now used by leading healthcare institutions and companies worldwide.

Vishnu also instructs Stanford's CS342/MED253 Building for Digital Health, an innovative course that brings together computer science, engineering, and medical students with clinical faculty to develop real-world healthcare applications. In 2025, he helped lead the international expansion of this program, with a successful launch at Chalmers University of Technology and University of Gothenburg in Sweden. He is also deeply involved in the effort to weave AI into the medical school curriculum at Stanford.

Vishnu's entrepreneurial experience includes co-founding a TechStars-backed startup and developing COVID-19 solutions deployed internationally. He has pioneered clinical AI applications, creating conversational agents and advanced analytics for unstructured health data, while contributing to international mobile health data standards. He serves as a technical consultant to companies including Google and speaks regularly at industry conferences.

Alongside his technology work, Vishnu maintains his connection to clinical practice as an Internal Medicine physician providing comprehensive primary care to a diverse patient population at Stanford Health Care.

CLINICAL FOCUS

- Internal Medicine
- Primary Care
- Clinical Informatics

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Medicine - Primary Care and Population Health

ADMINISTRATIVE APPOINTMENTS

- Technology Architect, Stanford Medicine Catalyst, (2023- present)
- Lead Architect Digital Health, Stanford Mussallem Center for Biodesign, (2022- present)
- Director of Technology, Stanford ARiSE (AI Research and Science Evaluation) Network, (2025- present)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, American Medical Informatics Association (2022 - present)

PROFESSIONAL EDUCATION

- Board Certification: Clinical Informatics, American Board of Preventive Medicine (2025)
- Board Certification: Internal Medicine, American Board of Internal Medicine (2019)
- Residency: Icahn School of Medicine at Mount Sinai Hospital Internal Medicine Residency (2019) NY
- Medical Education: Albany Medical College (2016) NY
- BA, Cornell University

Research & Scholarship

CLINICAL TRIALS

- ENGAGE-HF, Recruiting
- HrtEx RCT, Recruiting

PROJECTS

- Stanford Spezi - Stanford University
- Cardinal LifeSpace - Stanford University
- MAST: Medical AI Superintelligence Test - Stanford University
