

Meagan Moyer

Academic Staff - Hourly - CSL, Medicine - Primary Care and Population Health

Bio

BIO

I am a lecturer in the School of Medicine's Clinical Informatics Management master of science program. I co-instruct the autumn through spring quarters practicum courses. Students in my courses gain a foundational knowledge of health policy, learn from experts in the field of health technology, and complete a capstone project that brings together learnings from the entire program into a meaningful deliverable that furthers their career and the field of clinical informatics and digital health technology.

ACADEMIC APPOINTMENTS

- Academic Staff - Hourly - CSL, Medicine - Primary Care and Population Health

Teaching

COURSES

2025-26

- MCiM Practicum: CIM 200 (Aut, Win, Spr)

2024-25

- MCiM Practicum: CIM 200 (Aut, Win, Spr)
