Bio

BIO

Dr. Mehak Dhande is a cardiac electrophysiologist with a master's degree in clinical informatics and management from Stanford University. After internal medicine and cardiology training at Tufts Medical Center in Boston, she completed cardiac electrophysiology training at University of Pittsburgh Medical Center. She is a physician scientist, clinician and educator, with research interest in patient-facing applications of AI and scalable healthcare delivery models. In practice, she combines her knowledge of cardiology, EP and healthcare technology with that of health system strategies and operations, to deliver the highest quality of care to her patients.
