

Carson T. Moss

- Affiliate, Department Funds
- Resident in Medicine

Bio

BIO

Dr. Carson T. Moss is an Internal Medicine resident at Stanford and incoming Pulmonary and Critical Care Medicine fellow, starting in 2026. He has contributed to multicenter clinical trials including STOP-BOS, ATHOS-III, and PETAL-ROSE. His clinical and research focus centers on pulmonary complications in immunocompromised patients, with particular expertise in bronchiolitis obliterans syndrome (BOS), a rare manifestation of chronic graft-versus-host disease (cGVHD) following allogeneic hematopoietic stem cell transplantation. His work with Dr. Joe Hsu has been published in *Blood Advances* and *Transplantation and Cellular Therapy*, with findings presented at annual ATS meetings.

CLINICAL FOCUS

- Residency
- Internal Medicine
- Pulmonary Medicine
- Critical Care

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, Association of American Indian Physicians (2023 - present)
- Member, American College of Physicians (2023 - present)
- Member, CHEST (2023 - present)
- Member, American Thoracic Society (2023 - present)
- Member, California Thoracic Society (2025 - present)

PROFESSIONAL EDUCATION

- MD, Harvard Medical School (2023)
- BS, University of California, Davis (2017)

Research & Scholarship

CURRENT CLINICAL INTERESTS

- Graft-Versus-Host Disease
- Bronchiolitis Obliterans
- Organizing pneumonia
- Bronchiectasis

- Immunocompromised Host

LAB AFFILIATIONS

- Joe Hsu, Hsu Lab (11/1/2023)
