Stanford

Sudarshan Tejanag Harave

Power Electronics Engineer, Accelerator

Publications

PUBLICATIONS

- **Distance preserving machine learning for uncertainty aware accelerator capacitance predictions** *MACHINE LEARNING-SCIENCE AND TECHNOLOGY*
  Goldenberg, S., Schram, M., Rajput, K., Britton, T., Pappas, C., Lu, D., Walden, J., Radaideh, M., Cousineau, S., Harave, S.
  2024; 5 (4)
- **A Novel LCC-CLCC Resonant Tuning Network for Light-Load Conditions in Wireless Power Transfer Systems**
  Harave, S., Onar, O., Mohammad, M., Galigekere, V., Su, G., IEEE
  IEEE.2023
- **Efficiency and Output Power Sensitivity to Control Parameter Variations in an LCC-Series Wireless Power Transfer System**
  Harave, S., Onar, O., Mohammad, M., Galigekere, V., Su, G., IEEE
  IEEE.2023
- **Suppressing circulating current in the modular multilevel converter using line-to-line voltage correction modules**
  Harave, S., Mancilla-David, F., IEEE
  IEEE.2019
