

Stanford

Susanna Gunamany

Postdoctoral Scholar, Urology

Bio

BIO

Dr. Gunamany received her PhD in Public Health from the Indian Institute of Technology (IIT) Gandhinagar. Before her doctoral studies, she earned a Master of Public Health (MPH) degree from the Jawaharlal Institute of Postgraduate Medical Education and Research (JIPMER), India, and a Bachelor of Science from the University of Kerala.

Dr. Gunamany's scholarly pursuits revolve around the convergence of health and technology, with a specific emphasis on mobile health (mHealth) and its potential for improving healthcare delivery and access. Broadening her research scope, she is interested in health disparities and inequalities research, focusing on marginalized populations and the intricate interplay of social, economic, and environmental factors influencing health outcomes.
