

Stanford

Evelyn Wong

- MD Student, expected graduation Spring 2028
- Ph.D. Student in Bioengineering, admitted Spring 2026
- MSTP Student

Bio

BIO

Evelyn is pursuing an MD-PhD in the Medical Scientist Training Program (MSTP), jointly advised by Dr. Longzhi Tan (Neurobiology) and Dr. Zhenan Bao (Chemical Engineering).

She graduated summa cum laude from Harvard University with a major in neuroscience and a minor in Spanish literature. Evelyn received the Herchel Smith Fellowship for her thesis project at the MIT McGovern Institute, working with Dr. Edward Boyden to develop a next-generation protein sequencing technology. As a Marshall Scholar, Evelyn earned an MPhil in the Neural Computation Lab at University College London, where she optimized existing all-optical interrogation techniques to investigate cortical brain function.

Evelyn is a recipient of the Knight-Hennessy Scholarship (2023) and the Paul & Daisy Soros Fellowship for New Americans (2024), supporting her dual-degree training. Her current research focuses on developing flexible bioelectronics for multi-modal recording and neural stimulation, as well as 3D microphysiological systems for probing neural-tumor interactions.

EDUCATION AND CERTIFICATIONS

- Bachelor of Arts, Harvard University , Neuroscience (2021)
- Master of Philosophy, University College London (2023)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Soft bioelectronics for multi-modal sensing and neural stimulation
