

Rwaida Gharib

Ph.D. Student in Environment and Resources, admitted Autumn 2023

Bio

BIO

Rwaida Gharib is a PhD candidate at Stanford's Doerr School of Sustainability and an MSx candidate at the Graduate School of Business. She studies climate displacement and the protection and resource allocation for frontline communities. Her field research spans across East Africa, Central America, and wildfire-affected communities in California, tracing how narrative, policy, and capital shape institutional support.

She is a Climate and Environmental Justice Fellow at the Center for Just Environmental Futures, a King Center Global Development Scholar, and has contributed to adaptation finance research at Stanford's Sustainable Finance Institute and the GSB's Ecopreneurship Program.
