Stanford

Maxwell Austin

Ph.D. Student in Chemistry, admitted Autumn 2023

Publications

PUBLICATIONS

- **Monomeric Insulin Analog and Stabilizing Excipient Enabled Ultrafast Insulin Formulation.** *Advanced materials (Deerfield Beach, Fla.)*
  Zhang, Y., Lin, T., Tran, N. L., Jung, J., Blakely, A., Dao, Y., Austin, M. J., Lal, R. A., Hill, C. P., Chou, D. H.
  2026: e73767
- **Modulation of insulin receptor activation through controlled folding of peptide ligands.** *Organic & biomolecular chemistry*
  Li, W., Dao, Y., Lin, T., Austin, M. J., Lin, N. P., Chou, D. H.
  2025
- **Insulin Stabilization Designs for Enhanced Therapeutic Efficacy and Accessibility.** *Accounts of chemical research*
  Zhang, Y., Austin, M. J., Chou, D. H.
  2024
