Stanford

Sarah Huang

- Program Manager, Medicine - Med/Cardiovascular Medicine
- Research Data Analyst 1, Medicine - Med/Cardiovascular Medicine

Publications

PUBLICATIONS

- **Distinct Mechanistic Features of Atrial Fibrillation in Hypertrophic Cardiomyopathy.** *Heart rhythm*
  Liu, M., Huang, S., Kawana, M., Wheeler, M. T., Parikh, V., Perez, M. V.
  2026
- **Genetic exceptionalism and genomic contextualism among Asian Americans: a qualitative study.** *Journal of community genetics*
  Huang, S. D., Martschenko, D., Scherer, C. R., Chiang, K. F., Chang, K., Naik, H.
  2025; 17 (1): 2
- **Sarcomeric Genotype and Atrial Fibrillation Severity in Hypertrophic Cardiomyopathy**
  Levy, J., Huang, S., Liu, M., Perez, M., Weldy, C. S., Parikh, V. N.
  LIPPINCOTT WILLIAMS & WILKINS.2026: A8321
- **The burden of an ultra-rare inherited skin disorder: Congenital erythropoietic porphyria.** *Molecular genetics and metabolism*
  Naik, H., Huang, S. D., Williams, L. R., Wheeden, K., Erwin, A. L.
  2026; 149 (3): 110290
- **Missing Values in Longitudinal Proteome Dynamics Studies: Making a Case for Data Multiple Imputation.** *Journal of proteome research*
  Yan, Y., Sankar, B. S., Mirza, B., Ng, D. C., Pelletier, A. R., Huang, S. D., Wang, W., Watson, K., Wang, D., Ping, P.
  2024; 23 (9): 4151-4162
- **Exploring the role of digital tools in rare disease management: An interview-based study.** *Journal of genetic counseling*
  Chang, A., Huang, S. D., Benjamin, D. J., Schmidt, J. L., Palmer, C. G., Garrison, N. A.
  2024
- **Development and validation of a computable phenotype for Turner syndrome utilizing electronic health records from a national pediatric network.** *American journal of medical genetics. Part A*
  Huang, S. D., Bamba, V., Bothwell, S., Fechner, P. Y., Furniss, A., Ikomi, C., Nahata, L., Nokoff, N. J., Pyle, L., Seyoum, H., Davis, S. M.
  2023
