Professional Overview

BIO

Dr. Tehrani is a board-certified, fellowship-trained interventional cardiologist with Stanford Health Care Tri-Valley in the East Bay.

He is focused on building long-term relationships with his patients and their families, while sharing his evidence-based expertise in the noninvasive and minimally invasive management of cardiovascular disease. He takes pride in forming care plans based on mutual decision-making.

Dr. Tehrani's research interests include cutting-edge technology and advancements in medical management of cardiovascular disease. His clinical research studies and funded clinical research trials have focused on cardiovascular biomarkers, coronary physiology, cardiac hemodynamics, cardio-oncology, and procedural closure devices. His research background has been instrumental in helping him provide individualized, evidence-based care plans for conditions ranging from advanced heart failure to complex coronary disease.

Dr. Tehrani has an extensive clinical research background, with over 40 peer-reviewed publications in top cardiology journals. He has done over 30 presentations at conferences, including the American Heart Association (AHA) and American College of Cardiology (ACC) national meetings.

Dr. Tehrani is a member the American College of Cardiology, the American College of Physicians, the American Heart Association, the Heart Failure Society of America, and the International Society of Heart and Lung Transplantation.

CLINICAL FOCUS

- Cardiovascular Disease
