Bio

BIO

I lead the Laboratory for Computation & Language in Minds & Brains (CLiMB Lab). We try to figure out how our brains let us go so efficiently from sensation (e.g., speech, reading) to meaning, and we do this using a combination of neuroimaging, computer modeling, and behavioral experiments. See the lab website for details.

ACADEMIC APPOINTMENTS

- Assistant Professor, Linguistics
- Assistant Professor (By courtesy), Psychology
- Member, Bio-X
- Associated Faculty, Institute for Computational and Mathematical Engineering (ICME)
