Juan N. Pava

Research - Post-Bacc, Ethics In Society

Bio

BIO

Juan N. Pava is a Research Fellow in the Tech Ethics and Policy Rising Scholars Program at Stanford's McCoy Family Center for Ethics in Society. At Stanford HAI, his work focuses on the intersection of emerging technologies, the social sector, and the Global South, with an emphasis on equity and access. Separately, he collaborates with Stanford's Human-Trafficking Data Lab, where he investigates issues of labor exploitation.

Juan's broader research interests include the political economy of emerging countries and its intersection with political philosophy and ethics. He holds a B.A. in Philosophy and Economics from New York University and was born and raised in Colombia.
