Bio

BIO

Ms. Vogel is a serial technology entrepreneur and dynamic executive with more than 25 years of experience helping companies finance, grow and successfully monetize their business. Building the largest mobile banking provider and permanently changing how customers interface with their financial institution is only one of Ms. Vogel's many innovative accomplishments. Ms. Vogel's professional experiences as a Founder, President, CFO, CPA, Board Member, and Vice President at a leading Investment Bank, create a unique set of skills in board governance, strategic finance, executive management, and technology.

Ms. Vogel has focused her career on innovative, high-growth businesses with products and services that are transformational in nature to deliver above-average returns for investors. She has successfully completed more than a dozen mergers as both buyer and seller and has served as President and Chief Financial Officer for several high-growth Bay Area companies.

Currently, Ms. Vogel serves on three public boards as a director -- TriCo Bancshares (NASDAQ: TCBK), a premier bank in California with over \$10 billion in assets; Forge Global Holdings (NYSE: FRGE), a global provider of marketplace infrastructure, data services and technology solutions to enable investors to access the private markets; and Triple Point Venture Growth BDC Corp. (NYSE: TPVG), an externally-managed business development company providing debt financing and equity investments to venture growth stage companies. Earlier in her career, Ms. Vogel worked in Investment Banking at Montgomery Securities and as Certified Public Accountant with KPMG. She earned an MBA from the Harvard Business School and is a former professor and current Board Trustee at St. Mary's College of California.
