Bio

BIO

Dr. Lily Sung is a fellowship-trained immunologist and rheumatologist at Stanford Health Care. She also serves as a clinical assistant professor in the Department of Medicine, Division of Immunology & Rheumatology at Stanford University School of Medicine.

Dr. Sung specializes in diagnosing and treating patients with rheumatic diseases. She has special interest in rheumatoid arthritis, ankylosing spondylitis, psoriatic arthritis, and lupus. Dr. Sung also treats patients with rare, chronic autoimmune diseases that involve muscle inflammation.

Dr. Sung's research focuses on the impact of environmental exposures on rheumatic diseases and improving health outcomes in vulnerable populations. Her work has been published in peer-reviewed journals, including Arthritis & Rheumatology, Medical Care, Clinical Immunology Communications, and Journal of General Internal Medicine.

Dr. Sung is a member of the American College of Rheumatology (ACR).
