Brody Kladis

Undergraduate, Vice Provost for Undergraduate Education

Bio

BIO

Undergraduate student in Mechanical Enigneering

Engineering Project Lead & Robotics Course Instructor at Evodyne Robotics

Stanford Student Robotics - Battlebots Team Lead & Team Founder

About me:

Hello, I am Brody Kladis is an undergraduate student in mechanical engineering. I have worked in industry at Axon and at Evodyne Robotics on projects relating to public safety, UAV technology, robotics, manufacturing processes, and more. Some of my past experiences include FIRST Robotics Competition, The Luminosity Lab, and Stanford SSI. Man of my most exciting work comes from my personal projects and can be found on my portfolio website linked below.
