Bio

BIO

Dr. Katie Hohenberger is a fellowship-trained otolaryngologist and head and neck surgeon with Stanford Health Care. She is also a clinical assistant professor in the Department of Otolaryngology, Division of Head and Neck Surgery at Stanford University School of Medicine.

Dr. Hohenberger specializes in diagnosing and treating a variety of conditions that affect the head and neck, with a focus on benign (noncancerous) and cancerous thyroid and parathyroid disorders. She offers comprehensive care for endocrine conditions, which includes in-office ultrasounds, biopsies, ablation procedures, and surgical treatments.

Dr. Hohenberger's research is focused on the management of head and neck cancers and thyroid nodules. She also studies techniques for improving outcomes in head and neck surgery.

Dr. Hohenberger has published her research in several peer-reviewed journals, including Oral Oncology, Journal of Cellular and Molecular Medicine, and Annals of Surgical Oncology. She has also presented to her peers at regional and national meetings, including annual meetings of the American Thyroid Association and the Society for Surgical Oncology.

Dr. Hohenberger is a member of the American Academy of Otolaryngology – Head and Neck Surgery, the American Head and Neck Society, and the American Thyroid Association.
