Bio

BIO

Dr. Samantha Hemingway is a licensed, fellowship-trained clinical psychologist and clinical assistant professor in the Anxiety and Depression Adult Psychological Treatment (ADAPT) Clinic, Department of Psychiatry and Behavioral Sciences at Stanford University School of Medicine.

Dr. Hemingway specializes in the treatment of obsessive-compulsive disorder (OCD) and related disorders, as well as anxiety and mood disorders. She has experience providing treatment in various levels of care settings, ranging from outpatient and intensive outpatient to partial hospitalization. Her work emphasizes evidence-based, high-quality, and personalized mental health care.

Dr. Hemingway has published her research in several peer-reviewed journals, including International Journal of Psychological Research and Reviews and Journal of American College Health. She has also shared her expertise nationally and internationally at meetings of the American Psychological Association (APA), the International Association for Cross-Cultural Psychology, and the Association for Psychological Science.

Dr. Hemingway is a member of the APA, Society of Clinical Psychology, and Society for Clinical Neuropsychology.
