#### BIO

Electrical and Computer Engineer & Entrepreneur with focal interest in Artificial Intelligence and IoT. Currently working in the development of next-gen smart cities in Brazil, the world's 2nd most advanced country in digital government.

My work focuses on innovation and digital transformation strategy, developing short, medium and long-term roadmaps for technology solutions propelling public administration over hundreds of cities in the country. Under my leadership at IPM, our SaaS platform has been awarded as the best solution for smart cities in Brazil, as one of the 2 most innovative software companies in Southern Brazil, and as the 5th best HR team in the country.

#### EDUCATION AND CERTIFICATIONS

- Bachelor's, Duke University , Electrical and Computer Engineering (2020)
