Bio

BIO

Dr. Byron Lee is Professor of Medicine in the Stanford Division of Cardiovascular Medicine and Cardiac Electrophysiology Section. He has published over 150 peer reviewed articles and 10 book chapters. He has written two books to help students navigate the medical school admission process: Insider's Premed Guidebook and Insider's High School Premed Guidebook. His research team studies treatments to prevent sudden cardiac death, atrial fibrillation, and complications of cardiac device lead extraction. He has won numerous teaching awards for his work with medical students, residents, and fellows. He currently teaches cardiovascular medicine and ECG reading at Stanford Medical School in the Practice of Medicine INDE 202, INDE 203, INDE 204 and INDE 205 courses. He also serves as Chief of Cardiac Electrophysiology at the Palo VA Medical Center and Head Cardiologist for University of California Athletics.
