Bio

BIO

Dr. Jonathan Duong is an Associate Professor in the Division of Hospital Medicine at Stanford University School of Medicine. He practices clinically as a hospitalist on inpatient medicine services at Stanford Health Care. He completed his medical school and internal medicine residency at University of Texas Southwestern Medical Center and the Academic Hospital Medicine Fellowship at University of California, San Francisco.

Dr. Duong is a clinician-educator whose academic interests center on faculty development, medical education, and clinical operations. Prior to joining Stanford, he directed a faculty development program in hospital medicine and served as an associate program director for an internal medicine residency. At Stanford, he contributes to faculty recruitment and division mentorship. He formed the Hospital Medicine Direct Care (attending only) Service at Stanford, including a hospital medicine elective for residents and medical students.
