BIO

Christopher Wolters is an M.Sc. candidate in Electrical and Computer Engineering at the Technical University of Munich (TUM). His research focuses on artificial intelligence, bio-inspired computing, and hardware-software co-design. He is currently a Visiting Student Researcher at Stanford University, where he works on AI computing architectures under the supervision of Prof. Subhasish Mitra and Prof. Ulf Schlichtmann.

Christopher has conducted research at the University of Tokyo on compute-in-memory architectures and at Duke University on neuromorphic hardware, and he completed academic training at ETH Zurich in Electrical and Computer Engineering. His accolades include the Max Weber Program scholarship by the German state, the Best Poster Award at MWSCAS 2023, and the NSF-CISE MWSCAS Student Award.
