Stanford

Cesar R Escalante

Adjunct Lecturer, Civil and Environmental Engineering

Bio

BIO

As Autodesk's architecture innovation evangelist, Cesar leverages his two-decade career at industry leaders like Gensler, HOK, and Flad Architects to champion cutting-edge technologies. A deep passion for computational design and digital prototyping complements his expertise in delivering multi-billion-dollar projects. A recognized thought leader, Cesar shares his knowledge through speaking engagements and education while actively shaping the industry through leadership roles in the American Institute of Architects. Cesar is the 2025 Chair of the AIA National Technology in Architectural Practice Knowledge Community and Board Director of the AIA San Francisco.
