Bio

BIO

Dr. Shem is a Clinical Assistant Professor in the Section of Dental Medicine and Surgery at Stanford University. He trained in Dental Oncology at Memorial Sloan Kettering Cancer Center, focusing on oral complications of cancer therapy and non-surgical management of patients with osteoradionecrosis (ORN) and medication-related osteonecrosis of the jaw (MRONJ). He also trained in Oral and Maxillofacial Pathology at Columbia University and has expertise in diagnosing and managing oral mucosal diseases.

As a dental oncologist and oral pathologist, he evaluates patients before and after organ and stem-cell transplant, radiation therapy, chemotherapy, and bisphosphonate therapy. He has particular interest in oral manifestations of systemic disease, oral complications of systemic therapy, and oral dysplasia.

CLINICAL FOCUS

- Oral Oncology
- Oral Pathology
- Dental Oncology
- Oral Medicine
- Lichen Planus, Oral
- Bisphosphonate-Associated Osteonecrosis of the Jaw
- Dentistry
- Oral Dysplasia
