Bio

BIO

Dr. Harish Dharmarajan is a faculty member at Santa Clara Valley Medical Center, a tertiary teaching hospital focused on serving San Jose's medically underserved population.

He completed his residency training at the University of Pittsburgh Medical Center and fellowship training in Rhinology and Skull Base Surgery at Oregon Health & Science University. He enjoys treating patients across a wide range of Otolaryngology conditions with a special emphasis on sinonasal and skull base disorders. His research interests include mechanisms of chronic rhinosinusitis, olfaction, and treatment of sinonasal and skull base tumors.

Dr. Dharmarajan's specialities include:
Endoscopic nasal and sinus surgery
Treatment of sinonasal tumors
Endoscopic approach to pituitary and skull base tumors
Management of CSF leaks
Olfactory disorders
