Bio

BIO

Perla Villamor, MD, is a Clinical Instructor in the Clinician Educator line in the Department of Otolaryngology — Head & Neck Surgery and the Division of Pediatric Otolaryngology at Stanford University School of Medicine. She completed her medical and otolaryngology training in Colombia, followed by a pediatric otolaryngology fellowship in Mexico.

She has extensive experience in research, teaching, and clinical practice, having worked in leading institutions across Latin America and the Middle East.

Her passion for pediatric airway surgery has driven her to collaborate on global surgery initiatives and contribute to international scientific publications. She is deeply committed to working with children and their families to improve their quality of life and ensure they experience happy, healthy childhoods.

She is currently pursuing a two-year International Fellowship in Complex Pediatric Otolaryngology at Stanford Children's Hospital.
