Adam Wendt

Diving and Boating Safety Officer, Oceans

Bio

BIO

My diving career started by surfing and snorkeling in Mexico with my family at a young age. I became a NAUI Divemaster and lived in Roatan Honduras. I later moved to Arlington Texas where I became a NAUI Instructor at University of Texas at Arlington. Later I moved to Panama City Florida and worked at Florida State University as the Diving Safety Officer and Underwater Crime Scene Investigation Instructor. I logged over 2500 dives in the North Florida waters from the Gulf of Mexico to the freshwater caves. It is my dream to make diving accessible to as many people as possible so they can share my love for the underwater world.
