

Stanford

Maria del Mar Sanchez Martin

Postdoctoral Scholar, Neurosurgery

Bio

BIO

I am a postdoctoral researcher in the Neurosurgery Department at Stanford University, under the supervision of Dr. Llorente. My research interests lie in novel stem cell therapies for spinal cord injury, focusing not only on therapeutic applications with translational perspectives, but also on understanding the underlying mechanisms that promote recovery

PROFESSIONAL EDUCATION

- PhD, Polytechnique University of Valencia , Neuroscience (2025)
- MS, University of Malaga , Advanced Biotechnology (2020)
- BS, University of Malaga , Biochemistry (2019)

STANFORD ADVISORS

- Irene Lorenzo Llorente, Postdoctoral Faculty Sponsor
