#### BIO

Dr. Daniel Aliseda graduated in Medicine from the University of Navarra in Pamplona, Spain, and completed his residency in General Surgery at the Clínica Universidad de Navarra. During this time, he developed a strong interest in Hepatobiliopancreatic diseases and Liver Transplantation, which led him to pursue a PhD with international distinction. His research focused on developing models and strategies to improve survival in patients with liver and pancreatic neoplasm—one of which was nationally recognized as the best research project conducted by a surgical resident in Spain. As part of his academic training, he also completed a clinical and research stay at the Centre Hépatobiliaire Paul Brousse in Paris. After finishing his residency, he joined the HPB and Liver Transplant Unit at the Clínica Universidad de Navarra as a Junior Attending Surgeon.
