Bio

BIO

A results-oriented leader passionate about leveraging Artificial Intelligence and technology to drive transformative change in traditional businesses. With a background in Mechanical Engineering (UNICAMP, MTech from UTC) and hands-on experience in AI strategy, venture capital, and entrepreneurship, I specialize in building and scaling innovative solutions that deliver measurable impact. Currently, as Partner & AI Director at 39A, I lead the development and implementation of integrated AI platforms across diverse industries, enabling companies to unlock new levels of efficiency and growth.
