

Merna Morcos

Affiliate, Neurosurgery

Bio

BIO

Merna Morcos is a student leader and aspiring physician-scientist with experience in neurosurgery research at Stanford and medical shadowing at UCSF and Stanford Medicine/VA Palo Alto. She founded LeadLaser, an award-winning project that makes lead testing in water more affordable and accessible, and currently serves as Associate Zone Councilor and Chair for Zone 18 of the Society of Physics Students National Council. With leadership roles across multiple clubs, and volunteer work in hospitals and hospice care. She demonstrates a strong blend of research, service, and resilience.
