Stanford

Angel Rala

Contingent ADM 1, Medicine - Primary Care and Population Health

Bio

BIO

Angel is a driven undergraduate pursuing a bachelor's degree in Neuroscience and a minor in Bioinformatics from the University of California, Santa Cruz. Angel's passion for neurodegenerative disorders has led her to several lab positions studying Huntington's disease and Alzheimer's Diseases while gaining experience with brain organoids. She plans to pursue medicine in the future.

CURRENT ROLE AT STANFORD

Program Manager Assistant at Stanford's Clinical Summer Internship
