

Shania Danielle Bayley

Postdoctoral Scholar, Psychiatry

Bio

BIO

Dr. Shania Bayley is a Postdoctoral Scholar on the Autism Spectrum Disorders track at Stanford University School of Medicine, Department of Psychiatry and Behavioral Sciences. She earned her Doctor of Psychology (Psy.D.) in Clinical Psychology from Loyola University Maryland, where her training was specialized in child and adolescent psychology with a strong emphasis on neurodevelopmental disorders, trauma-informed care, and early relational health.

She completed her predoctoral internship at WestCoast Children's Clinic in Oakland, California. Her clinical interests include diagnostic assessment of autism spectrum disorder, parent-child relational dynamics, and attachment-based interventions in marginalized communities. She has received training in psychodiagnostic testing and has experience providing therapy to children, adolescents, and families across school, community, and hospital settings.
