

Stanford

Luke Neal

Masters Student in Chemical Engineering, admitted Autumn 2025

Bio

BIO

I'm currently a process engineer at Merck working at the Formulation and Laboratory Experimentation Facility with a focus on oral solid dosage production. I recently graduated from Yale University with a Bachelor's of Science in Chemical Engineering and an Energy Studies certificate. At Yale, I was on the Varsity Men's Tennis team. My internship experiences during undergraduate studies included working as a Process Engineering Intern in ExxonMobil's Technology and Engineering division. I was focused on modeling the extraction of battery grade lithium from brine. I also gained experience in the renewable energy and green engineering fields through my internships at Tesla and West Environmental.
