

Sze Chun Liu

Masters Student in Design, admitted Autumn 2025

Bio

BIO

With a background in architecture from the Bartlett School of Architecture, UCL, and interdisciplinary research experience at the University of Hong Kong's Healthy High-Density Cities Lab, Sze Chun works at the intersection of design and engineering to address complex human challenges. Current work focuses on the global issue of loneliness, emphasizing human-centered approaches that bridge disciplines, foster connection, and reimagine the role of technology in everyday life.

EDUCATION AND CERTIFICATIONS

- BSc, Bartlett School of Architecture, University College London , Architecture (2023)
