Alexis Medina
Academic Prog Prof 2, FSI - FSE

Bio

BIO
Alexis Medina has been researching the economics of social issues in China for over ten years. She has extensive experience in international program management, including leading survey teams in rural China, overseeing the design and development of field projects, and coordinating data collection and analysis. Her research interests center on the intersection of health and education in rural China. Alexis speaks fluent Mandarin, and holds a Master’s in East Asian Studies from Yale University.
