Stanford

Rizwan Hassan Shinwari

Visiting Instructor, Neurosurgery

Bio

BIO

Rizwan Hassan Shinwari is a Visiting Instructor in the Department of Neurosurgery at Stanford University. His research focuses on the clinical outcomes and adverse effects associated with stereotactic radiosurgery, with the goal of optimizing patient care and advancing neurosurgical precision.

Dr. Shinwari earned his medical degree from Khyber Medical College and brings a strong background in clinical medicine and surgical sciences. His academic and professional interests lie at the intersection of neurosurgery, radiological innovation, and patient-centered outcomes research. He aspires to further his training and career as a neurosurgeon in the United States.
