

Stanford

Sarah Arnold

Ph.D. Student in Bioengineering, admitted Autumn 2025

Bio

BIO

I am a Bioengineering PhD student, with an interest in mental illness causes and treatments, women's healthcare, and hormonal impacts on the brain and body. Coming from a Chemical and Biomedical Engineering background, I am excited to apply to apply engineering principles to these current health challenges.

EDUCATION AND CERTIFICATIONS

- Bachelor of Engineering, McMaster University , Chemical and Biomedical Engine (2025)
- BEng & BME, McMaster University , Biomedical and Chemical Engineering (Co-op program) (2025)
