

Stanford

Lindsay Hope Martin, MSN, AGNP-C, AOCNP

Professional Overview

BIO

Lindsay Martin, MSN, AGNP-C, AOCNP is a nurse practitioner specializing in head and neck and endocrine malignancies. She began her career as a registered nurse at Stamford Hospital in Stamford, CT after graduated from New York University. She worked on an inpatient oncology and palliative care unit before transitioning to outpatient cancer care. She joined Mount Sinai Hospital as a nurse clinical coordinator within the Genitourinary Oncology practice while pursuing her master's degree from Hunter College. After becoming a board-certified nurse practitioner, she remained within the GU program until 2021, when she took over the GU Cancer Clinical Trials program as a program manager and sub-investigator. Her supervisory scope expanded in 2024 when she became the nurse leader for nurses and APPs within the Solid Tumor Clinical Trials service line. Seeking to grow as a nurse leader and expand her scope of expertise, she joined Stanford Health Care in August 2025 as the Lead Advanced Practice Provider for the Head and Neck, Cutaneous and Endocrine department. She is passionate about reducing healthcare disparities and improving access to quality cancer care through care coordination.
