Bio

BIO

I have a BSc degree in Biology from the National and Kapodistrian University of Athens (Greece, 2016) and a MSc in Marine Mammal Science from the University of St Andrews (Scotland, 2017). I also obtained my PhD in Bioacoustics from Aarhus University (Denmark, 2022) and since then I have worked as a postdoctoral researcher under two different contracts with Aarhus University and the University of Auckland (New Zealand).
