

## Tiffany Luong

Postdoctoral Scholar, Infectious Diseases

---

### Bio

#### BIO

Tiffany Luong obtained her Ph.D. from UCSD/SDSU in the lab of Dwayne Roach where she studied the formulation, purification, and application of bacteriophages targeting the ESKAPE pathogen *Pseudomonas aeruginosa*. Currently, her research in the Bollyky Lab focuses on the development of preclinical models to study chronic infections of *P. aeruginosa* and the immunogenicity of bacteriophages to the mammalian host.

#### PROFESSIONAL EDUCATION

- Bachelor of Science, University of California Los Angeles (2015)
- Doctor of Philosophy, UCSD and SDSU Joint Doctoral Program (2024)
- PhD, UCSD/SDSU , Biology (2024)
- BS, UCLA , Molecular, Cell, & Developmental Biology (2015)

#### STANFORD ADVISORS

- Paul Bollyky, Postdoctoral Faculty Sponsor
