

## Moustafa Elattar

Visiting Instructor,

### Bio

---

#### BIO

Dr. Moustafa Elattar is a Visiting Instructor at Stanford University's Neuro-Oncology Laboratory. Originally from Egypt, he earned his M.B.B.Ch. with honors from Benha Faculty of Medicine, Benha University. Dr. Elattar has a strong background in clinical research, biostatistical analysis, and evidence-based medicine. His work at Stanford focuses on high-impact projects in Stereotactic Radiosurgery (SRS), exploring clinical outcomes, indications, and treatment-related effects in neurosurgical diseases such as meningiomas, vestibular schwannomas, paragangliomas, and arteriovenous malformations.

Beyond his current research, Dr. Elattar is passionate about integrating clinical insight with data-driven methodologies to advance neuro-oncology and improve patient outcomes.
