

Yingcheng Wu

Postdoctoral Scholar, Pathology

Bio

BIO

Yingcheng (Charles) Wu is an AI postdoc advised by Le Cong and Mengdi Wang, focusing on physical AI scientists, biomedical world models, and autonomous science infra. His work combines embodied AI, robotics, and agents to build self-driving laboratories capable of real-world scientific experimentation. He has published studies in *Cell*, *Science*, *Nature*, and received honors including the ICIS Sidney & Joan Pestka Award, the IUBMB Young Scientist Program Fellowship, and the APASL Young Investigator Award.
