

Stanford

Min'ao Qin

Undergraduate, Continuing Studies and Summer Session

Bio

BIO

Hi, I'm Min'ao Qin, but feel free to call me Frank. I'm a high school student at the Experimental High School Attached to Beijing Normal University, International Division. I'm deeply interested in history, political science, and global affairs—basically, anything that helps me understand how the world works. On campus, I'm also a tenor, composer, and music producer, so you'll often find me making or performing music. When I'm not in the classroom or studio, I'm probably on the court—basketball's my favorite, but I also play baseball and swim. I'm really looking forward to the Stanford Summer Session and the chance to meet new people. Feel free to reach out—I'd love to connect#
