Bio

BIO

Dr. Ahmer Irfan grew up in the UK where he attended the University of St Andrews for his undergraduate degree, followed by his MD at the University of Edinburgh. He then moved to the United States to complete his general surgery residency at the Johns Hopkins Hospital, and the University of Alabama at Birmingham (UAB). He then completed specialized fellowship training in hepatobiliary and pancreatic surgery (also called HPB surgery) at the University of Toronto before being recruited to Stanford. His principle practice is at Stanford Hospital and the Stanford Cancer Center. Dr Irfan's clinical speciality is in complex liver, pancreas and gastrointestinal oncology including advanced cancers as well as cancers that can be removed minimally invasively.
