

Lorenzo Paziienza

Undergraduate, Continuing Studies and Summer Session

Bio

BIO

Undergraduate student in Management and Artificial Intelligence at LUISS Guido Carli University and Visiting Student at Stanford University.

Interested in Artificial Intelligence, Machine Learning, semantic retrieval, graph analytics, and intelligent systems.

Academic experience includes the development of machine learning models for financial risk assessment, topology-aware semantic retrieval systems, graph-based analytics, and interpretable AI applications.

Particularly interested in the deployment of AI systems in real-world environments and in the computational methods that support their development and evaluation.
