#### BIO

Hi ! I'm Elliot VINH. I'm a French business student completing my Master's in Marketing & Business Development at Grenoble École de Management, with international experience across Norway (BI Norwegian Business School). With a non-linear academic background spanning medicine and engineering before pivoting to business, I bring an adaptable, cross-disciplinary perspective to everything I do. My professional interests center on the gaming, audiovisual, and tech industries, with a focus on sales and business development. Outside the classroom, I'm an avid climber, gamer, and culture enthusiast with ties to French Polynesia.
