

Juye Kim

Enviropreneur Fellow, HOOVER RESEARCH

Bio

BIO

Juye Kim is an Enviropreneur Fellow at the Hoover Institution at Stanford University, energy entrepreneur, and founder of Energy Studio. She has over 12 years of experience across the energy sector, spanning grid modernization, battery energy storage, AI infrastructure, climate technology, and strategic partnerships. Having worked in industry, research, and startups, she is passionate about translating emerging technologies into real-world impact. Her current work explores how AI and energy infrastructure can accelerate a more resilient, sustainable, and globally connected energy future.
