Bio

BIO

Dr. Kimberly Loo is a Clinical Assistant Professor of Medicine (Oncology) at Stanford University School of Medicine, with a clinical and research focus in melanoma and solid tumor cellular therapy.

Dr. Loo completed her undergraduate studies at the University of California, Los Angeles (UCLA), earned her MD from the Lewis Katz School of Medicine at Temple University, completed her Internal Medicine residency at New York-Presbyterian/Weill Cornell Medicine in collaboration with Memorial Sloan Kettering Cancer Center, and her Hematology and Medical Oncology fellowship and Master of Science in Clinical and Translational Investigation at Weill Cornell Medicine.

Dr. Loo is a clinical investigator specializing in melanoma, immuno-oncology, and solid tumor cellular therapies. Her research focuses on translating discoveries in cancer immunology into more effective immunotherapies and cellular therapies for patients. Dr. Loo has received national recognition for her clinical and translational research, including the American Society of Clinical Oncology (ASCO) Young Investigator Award, and her work has been supported by competitive research funding dedicated to advancing cancer therapies.
